

# WHITE PAPER

## META BULL COIN

# Meta Bull Coin

Meta Bull Coin , including but not limited to the overall project, Coin, website, smart contracts and any apps Meta Bull Coin as presented in this conceptual paper is not an licensed, unlicensed or exempted financial or payment service of any kind and in any jurisdiction. Any terminology used in this Whitepaper, on the Website or within the app is intended only as a basic reference, without any active or legal meaning of the same terms in a regulated and/or financial environment. Meta Bull Coin is a decentralised and community driven project and not have owners, shareholders, promoters, marketers, manages, directors or other figures or entities exerting any form of governance. The Meta Bull Coin smart contracts are open source, security audited, permanent and non- modifiable in any way. The Meta Bull Coin is strictly a utility Coin in all jurisdictions and it isn't and cannot be considered as a "security" or otherwise regulated Coin of any kind. Meta Bull Coin is not in any way e- money and/or fiat, or an asset backed stableCoin, whether global or limited in scope. This Whitepaper taken by itself is not a contract or a contractual agreement of any kind, it isn't an invitation, a solicitation or an offer to invest in Meta Bull Coin or acquire or use Meta Bull Coin in any way and with any expectation of profit therefrom. Any user of Meta Bull Coin declares to have received appropriate technical, administrative, regulatory and legal advice before and a after accessing and/or reading this whitepaper or the website, and/or using any portion or element of Meta Bull Coin (including Meta Bull Coin ). The user hereby acknowledges and accepts that there is an inherent high risk in accessing, acquiring or using any kind of blockchain and/or crypto system, Coin, platform, software or interface, including Meta Bull Coin , and further acknowledges with this disclaimer for any claim of any kind against any community member directly or indirectly involved with Meta Bull Coin , for any damage suffered, including total loss. Meta Bull Coin makes a credit card interface available on its website exclusively for the convenience of the users. The Company is not a payment processor of any kind, and has no control over credit card processing. Use at your own risk.

# PURPOSE OF THIS PAPER

The Meta Bull Coin is made up of a number of protocols and innovations. It's important to have clear documentation and technical specifications on key protocol design and implementations - for which we utilize an Meta Bull Coin . However, we feel it's equally important that we help our communities to understand what we try to accomplish, the trade-offs we have made, and how we have arrived at our current decisions.

We start this document with a detailed examination of the problems that public permissionless blockchains/Coins face today and the existing solutions attempting to solve them. We hope this provides the necessary context for our readers to understand our own rationale on how best to approach these challenges, and our underlying design decisions. We then provide a high-level walkthrough of all parts of the Meta Bull Coin , with a focus on how they work together to support the overall vision of the network.

Scalability, sustainability and interoperability are among the largest challenges public permissionless blockchains/Coins face today. While many projects claim to have solutions to these problems, it's important to understand where these problems come from and put solutions in the context of possible trade-offs.

## Meta Bull Coin

# INTRODUCTION

## Market Background

The blockchain is an incorruptible digital ledger of economic transactions that can be programmed to record not just financial transactions but virtually everything of value. Financial and technology industries alike are combining wonderfully, giving rise to the birth of blockchain outside of its normal working conditions. Blockchain is a distributed digital ledger designed to power and back cryptocurrencies.

Cryptocurrencies have been the top performing asset class over the last decade with its total market capitalization growing from around \$1.7 Billion in 2013 to where it stands now at \$ 1.7 Trillion. Recent months have witnessed global institutional investors – pension, hedge and endowment funds, which historically invest in diverse asset classes including stocks, commodities and real estate – invest in cryptocurrencies to diversify their investment portfolios and spread their risk.

Meta Bull Coin

# CRYPTO CURRENCY MINING

**Cryptocurrency mining—or crypto mining—**

is the method of verifying transactions on a digital ledger for a **blockchain** using machines with extensive computing power. Cryptocurrency mining is something any individual or organization can do with adequate **hardware** and **software** resources, but the expansion of mining and increasing costs make it progressively difficult for newcomers.

This article looks at **cryptocurrency** mining, how it works, the best mining apps, and whether it's a profitable business model in 2022.

Cryptocurrency mining is the process where specialized **computers**, also known as nodes or mining rigs, validate blockchain transactions for a specific cryptoCoin and, in turn, receive a mining reward for their computational effort.

# Meta Bull Coin

## ROAD MAP

## THE VEHICLE FOR MINING: NODES, RIGS, AND POOLS

Blockchains require an expansive network of machines to verify and store transactions to support global cryptocurrencies' overarching distributed digital ledgers. Rigs use the latest processors (e.g., GPU , FPGA , or ) ASIC and do little else but serve as a node for the blockchain's network. Using standard personal computers for mining is not advisable as most lack the computational power to handle mining-level processing.

With a fleet of nodes or a pool, a group of individual miners can combine computational effort, dubbed hash rates, to win block rewards and split the earnings according to contribution.

## ACHIEVING CONSENSUS THROUGH PROOF-OF-WORK

Blockchains require a protocol for achieving a decentralized consensus to verify the integrity of new blocks, and in crypto mining, this consensus mechanism is proof-of-work (PoW). By contributing computational effort to validating transactions, miners receive a predetermined amount of the Coin for their proof of work.

The protocol ensures the integrity of blockchain transactions and rewards miners for their expenses and effort, but it also deters threat actors hoping to manipulate the cryptocurrency. Crypto mining requires extensive processor power, creating competition and a barrier to entry for prospective nodes and mining rigs.

**Meta Bull Coin**

# **CRYPTO CURRENCY CLOUD MINING**

Cloud Mining is the process of cryptocurrency mining utilizing a remote datacenter with shared processing power. This type of cloud mining enables users to mine bitCoins or alternative cryptocurrencies without managing the hardware. The mining rigs are housed and maintained in a facility owned by mining company and the customer simply needs to register and purchase mining contracts or shares. Since cloud mining is provided as a service, there is generally some cost and this can result in lower returns for the miner.

Meta Bull Coin

# WHAT IS Meta Bull Coin ?

## About us

Meta Bull Coin is built on the BEP-20 chain and is one of the first crypto projects which is in collaboration with a real manufacturer, producing Meta Bull Coin.

Meta Bull Coin is a loyalty Coin that allows holders to benefit from discounts, consumer benefits, project decisions, and reflection!

Meta Bull Coin is looking to fully revolutionize the decentralized world. We have put together a team behind the Meta Bull Coin project to build better technology than what is currently available today. We are more than just a BEP-20 Coin, we are the future of BEP-20 / Decentralization and Cryptocurrency.

## Goals

We believe that by accelerating the transition to adopting cryptocurrency, we can help people globally to:

### Real TUC Bussiness

The goal of Meta Bull Coin is to make investments for holders profitable by creating a successful real TUC business.

### More Ways to Earn

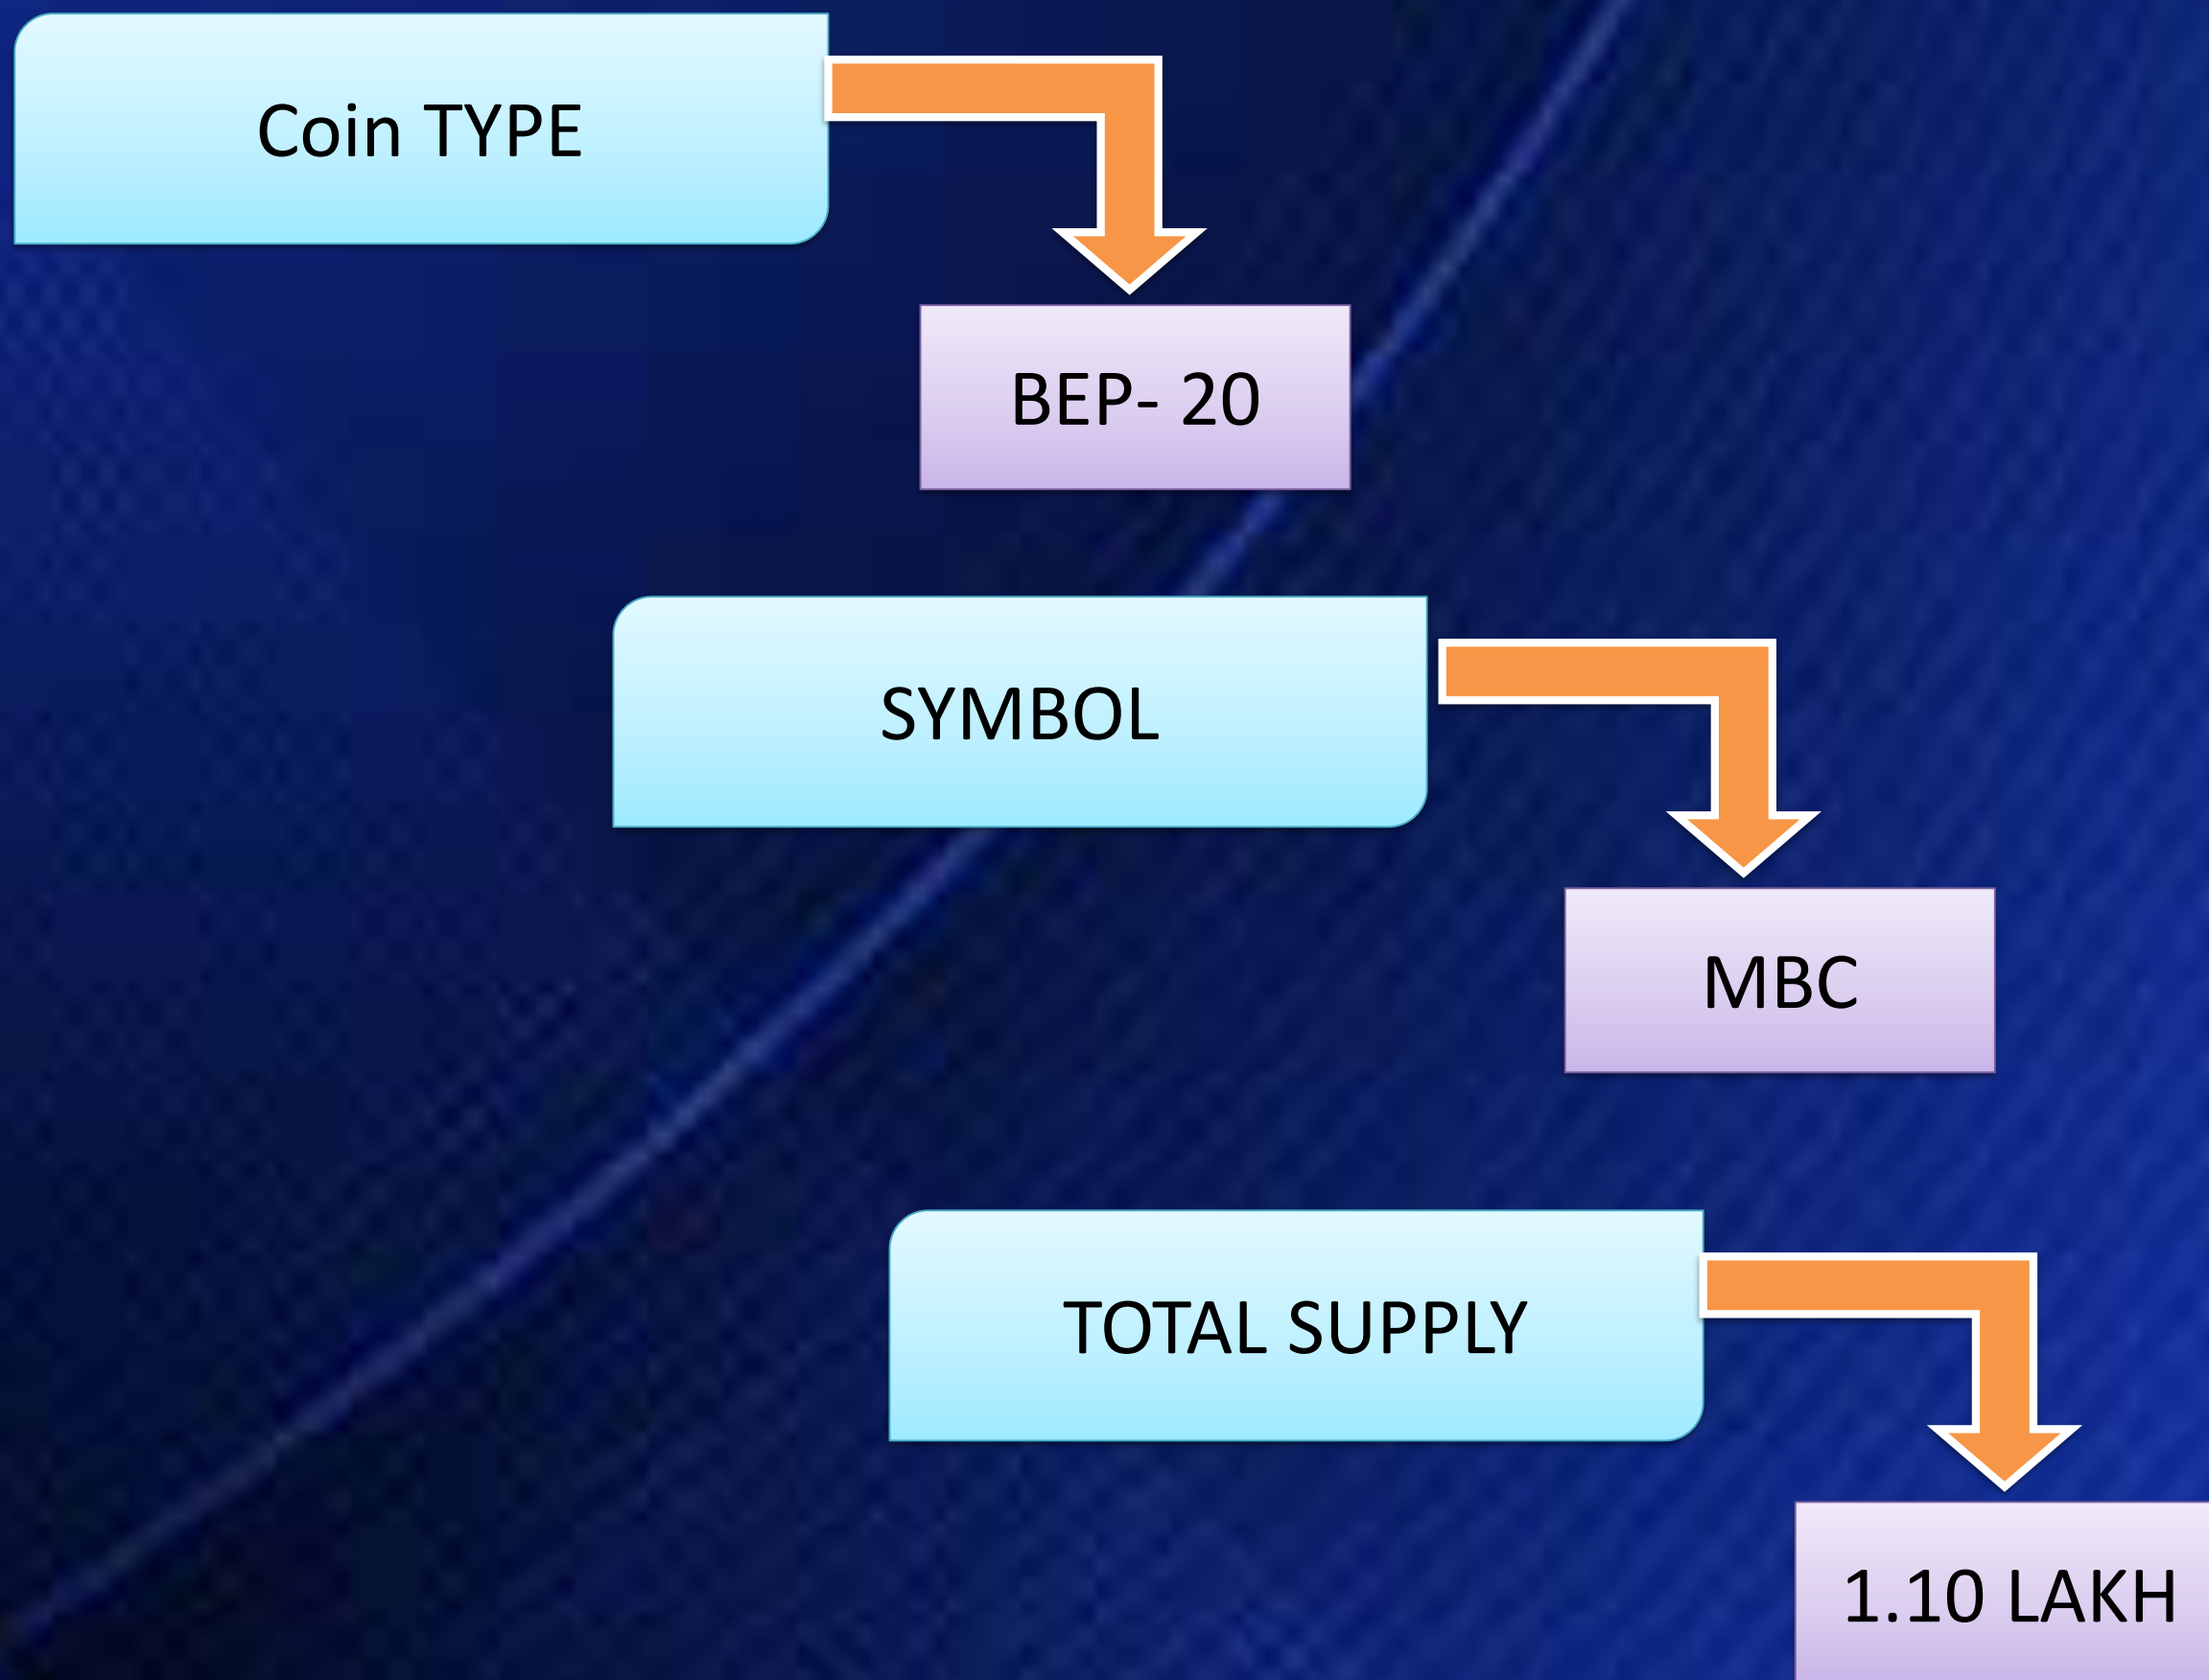

With the income of the Meta Bull Coin sale and NFT collection, regular buybacks of Meta Bull Coins will take place, which will increase the price and make the investment for each holder more attractive.

### Protect their identity

No central entity can compromise your identity.

# Meta Bull Coin ALLOCATION

# Meta Bull Coin

## COINOMICS

# DECENTRALIZATION

One of the largest long-term threats public blockchains/Coins face is an ever-increasing barrier of independent participation and transaction verification, reflected in the cost of full node operation. Full nodes allow blockchain participants to independently verify the on-chain state/history, and hold miners or validators of the network accountable by refusing to route invalid blocks. As the cost of full nodes increases and their numbers decline, participants in the network are increasingly forced to rely on professional service operators to provide both history and current state, eroding the fundamental trust model of open and permissionless blockchains.

For a full node to keep up with the progression of the blockchain, it must have adequate computational throughput to validate transactions, bandwidth throughput to receive transactions, and storage capacity to store the entire global state. To control a full node's operating cost, the protocol has to take measures to bound the throughput or capacity growth of all three of these resources. Most blockchain protocols bound their computational or bandwidth throughput, but very few bound the growth of the global state. As these chains grow in size and length of operation, full node operation costs will irreversibly increase.

## **Meta Bull Coin**

# **PROBLEMS**

**Some of the critical issues facing cryptocurrency usage and Meta Bull Coin adoption are the lack of a simplified way to send and receive money (using crypto), lending and borrowing (BEP-20 ) and staking (the new way of mining).**

## **Remittances**

**The cost of transferring funds through banks and currently known money remittance services is very high, it also takes 3 - 5 working days for the intended recipient to get the funds, this long delay comes at a cost.**

**With superior and tested technology (Meta Bull Coin technology), users will be able to send money across the world with high speed and lower cost and almost no cost using the Binfin platform.**

## **Security**

**Security is a crucial aspect of any exchange platform, given the rising levels of hacking activities targeted at exchanges in recent times. Meta Bull Coin is built to a high standard to ensure that the security of our users come first.**

**We have carried out a security assessment on our internal server, testing for external penetration and we've also consulted an external security firm to conduct a thorough external security test and full threat modeling exercise to ensure the completeness of their security controls.**

## Meta Bull Coin

# LACK OF AUTOMATED PROCESS

The lack of automated processes on several exchanges can be frustrating for users who intend to explore value-added services. With numerous applications and the high volume of data, the room for manual human errors is also bigger. **MAD** solves this problem by automating manual data entry tasks which in turn leads to higher productivity and no manual errors whatsoever.

Our automated process will create more transparency, drive efficiency, and facilitate process compliance.

The other challenges posed by decentralized exchanges are as follows:

In order to cope with this business context: Our vision is to develop a trustless Meta Bull Coin for the BEP-20 ecosystem. The project envisages the development of a truly decentralized exchange network in a trustless environment with lightning-fast transaction speed to support BEP-20 and cross-chain Coins communications. We have created that encourage features users to the platform that

primarily to draw basic to day traders and institutional investors who prefer cost reduced convenience, speed and efficiency in execution

## Meta Bull Coin

### Meta Bull Coin LIQUIDITY POOL

Adequate liquidity is essential to the successful operation of BEP-20 services. A lack of liquidity causes significant challenges to users. Prices in decentralized trading become extremely volatile. Interest rates available for loans fluctuate sharply. Lenders may be unable to withdraw their assets.

Some BEP-20 protocols have addressed liquidity by allowing users to pool their liquidity. However, these liquidity pools remain distinct from lending and staking. **Meta Bull Coin** will be the first to integrate liquidity pools, lending services, and staking services to maximize the liquidity accessible to the user.

Any investor will be able to deposit their idle assets into a liquidity pool and earn a reward on their allocated assets. Rewards will vary based on how the liquidity is utilized. There are several possible means by which the assets can deepen the liquidity of the integrated services:

Prevent illiquidity events. Many lenders seeking to withdraw their assets simultaneously can oftentimes lead to insufficient assets for withdrawal. This has happened several times on the largest BEP-20 protocol Compound.

## Meta Bull Coin

# Meta Bull Coin CRYPTO CURRENCY

Meta Bull Coin is a 100% community governed, decentralized cryptocurrency that launched in October 2024. Our missions are chosen by the community! They're my family and our team, they draw on expertise from all around the world and the goal is to make our family one of the most creative, innovative and largest cryptocurrency projects in the universe. We have created a BEP-20 protocol, which is the beginning of our BEP-20 ecosystem. This ecosystem will serve as a central point for a host of BEP-20 products and applications that will allow investors to add to their wealth generating abilities, grow their portfolios and experience BEP-20 in a user-friendly system. As our family grows in members and value, it is our priority to always give back to underserved communities around the world. I'm extremely proud to have my community participate in the governance of my Coin, all initiatives are executed through expertly drafted proposals and a secure voting process, that ensures the best decisions are formulated for the ensured growth of the Coin. Join one of the most vibrant crypto projects you'll ever see! A place where the project starts with you - the community.

## MORE ABOUT Meta Bull Coin

# Vision

Meta Bull Coin envisions to be the one-stop destination for services and transactions of financial industries that integrates Meta Bull Coin technology using cryptocurrency with the finance industry. Meta Bull Coin is established as a topmost BEP-20 platform by using Meta Bull Coins for various BEP-20 activities for everyone's needs making all transactions easy, convenient, private and secured.

# Mission

Meta Bull Coin strive towards the development of a more stable and robust BEP-20 platform that can replace traditional financial platforms or interoperate with them in a more modern and efficient manner. Meta Bull Coin wishes to turn around 7 billion global population (Only 10 million people adopted cryptocurrency) who still lacks to adopt Meta Bull Coin technology by developing interoperable applications between Meta Bull Coin and traditional applications that will promote the wider acceptance and usage of Meta Bull Coin over the scale. Taking the financial industry to a decentralized platform is the main objective of our company. So that the users can make more and more money through the platform.

Meta Bull Coin

## CORE VALUES

### Commitment

We want every user to participate with Meta Bull Coin , by way of utilizing and integrating Meta Bull Coin with the various financial services. It is our commitment to being clear, consistently remains committed to the project to develop relationships that make a positive difference in our customer's lives.

### Integrity

To be a transparent hub for users to interact and work together. We aim to make the BEP-20 market better as a whole, incorporating high standards of honesty and strong moral principles, doing the right thing all the time with no exemption.

### Inspire

The community of Meta Bull Coin holders helps create the value and relevance of the Coin. The business we are building on Meta Bull Coin and cryptocurrency provides a huge opportunity for growth and expansion for the various industries supporting entertainment. This is the way, Meta Bull Coin revolutionize and evolve with the ever-changing demands of the consumers' world.

Meta Bull Coin

# OBJECTIVES

## Disintermediation

We aim to reduce the need for trusted intermediaries while increasing security, removing time and cost bottlenecks.

## Connecting Businesses

By integrating a single API that makes money move faster, cheaper and more reliable for you and your customers.

## Global Reach

Our goal is to become the standard for seamless digital transactions and accessing financial services on a global scale and across borders.

## Meta Bull Coin

### KEY BENEFITS OF Meta Bull Coin

Meta Bull Coin platform is a unique, decentralized, robust, and secure platform for BEP-20 applications. It aims to provide a completely secured BEP-20 services that brings revolutionary in the financial ecosystem. Specifically,

Meta Bull Coin Will be a Multi-level financial ecosystem A reliable and secured payment method Establish a new Coin-based economy Transactions low fees, high speeds and easy access. Access to your money anytime, anywhere and get rewarded Asset's Coinization (gaming, real estate, education, etc.)

Meta Bull Coin continues to be a strong platform through its more amazing benefits: Decentralized Smart contract that works on self-execution of technical functionalities with no admin interference. Verified marketing strategy through Meta Bull Coin which is immutable and can't be changed or altered. Complex systems and procedures made easy to on-ramp both entry-level and advanced users.

## Meta Bull Coin

# MARKET ANALYSIS

With the enormous development of the **Meta Bull Coin** technology, new opportunities are arising in the field of investing. Crypto markets are borderless, open 24/7, and OFFER huge potential for growth. A rapidly growing number of initial Coin offerings (ICO) has led to more than 2,000 new cryptocurrencies being created and traded on daily basis, leading to high returns for many investors. In order to fully realize market potential, here is the market capitalization of the top technologybased companies listed on the Nasdaq and NYSE, compared to the market capitalization of cryptocurrencies: with no exemption.

## Decentralized Finance (BEP-20 ):

### An Emerging Giant

In 2020, the growth of BEP-20 took the crypto world by storm. In fact, Total Value Locked (TVL) – a measure of BEP-20 transaction value – grew by 14x in 2020. And already in 2021, TVL has more than doubled to a total value of \$37.67 billion.

Meta Bull Coin

## Meta Bull Coin PLATFORM

Meta Bull Coin is the official currency of Meta Bull Coin NETWORKS. It serves as an integral part of all the transactions and processes within the Meta Bull Coin ecosystem. The ecosystem is expected to grow relentlessly due to BEP-20 developments on the Meta Bull Coin network. It will be utilized in an open-source network generated through decentralized smart contracts on the BSC. Meta Bull Coin is world's top dAPP that is build on exceptional Meta Bull Coin BEP-20 experience. Meta Bull Coin is an exclusive Coin for various protocols in BSC ecosystem that can be earned through trading and participating in campaigns.

## Meta Bull Coin TECHNOLOGY

**Meta Bull Coin** uses tested BEP-20 technologies integrated in a concise and easy-to-use platform. Content Distribution Tech - Content distribution software disseminates content to online audiences across a variety of communication channels, such as social networks, paid search, websites, blogs, email, and more. These tools are used by content marketing teams to expand their audience reach and increase content visibility.

This technology is being used by major companies and has already successfully delivered hundreds of millions of applications downloads.

Some Key Features:-

- Automatic application updates
- Automatic error recovery
- Last-mile acceleration
- Redundant delivery
- network Multi-platform
- Download permission management

**Ad Tech** - Ad tech is an umbrella term that describes systems of analyzing and managing tools for programmatic advertising campaigns. It has plenty of moving parts, which means there are countless opportunities for agencies to set themselves apart.

**Meta Bull Coin**

# **AD TECH OPERATION**

The basic objectives of Ad Tech operation look like this: User activity and behavior on site is being monitored Enable content publishers to promote their products more efficiently Adapts to incoming information and collects the cream of the crop. Allow users to effortlessly earn Meta Bull Coin s by opting into the Meta Bull Coin Ads revenue share program

## **Meta Bull Coin PROTOCOL**

Meta Bull Coin Protocol is based on the BEP-20 Chain the next generation Meta Bull Coin BEP-20 developed by BSC to develop an ecosystem of decentralized applications, NFTs and digital assets. This dual-chain architecture will empower its users to build their decentralized apps and digital assets on one Meta Bull Coin and take advantage of the fast trading to exchange on the other.

## Meta Bull Coin

# DEFLATIONARY PRICE INCREASE

Meta Bull Coin are long-term deflationary. Emissions have a hardcap and are continuing to decrease, while burn is permanent and continuing to increase, and we burn quite a bit of Coins; A significant portion of protocol fees go towards Coin burn: 80% of all liquidation fees and 10% of all protocol lending interest earned by lenders. So as Meta Bull Coin Finance continues growing, more Meta Bull Coin will be burnt, leading to the value of each remaining Meta Bull Coin rising continuously and permanently.

# GOVERNANCE

We will soon launch a governance vault that will allow community members to stake their Meta Bull Coin ; stakers will receive x Meta Bull Coin where  $1 \text{ Meta Bull Coin} = 1 \text{ vote}$ , allowing them to decide on key governance decisions.

## **Meta Bull Coin**

**The Meta Bull Coin holders are invited to carry out a comprehensive evaluation of the company to comprehend the current or future values of Meta Bull Coin s obtained by them.
